Dr. Schwarz Medical Institute (DSMI) of Beverly Hills, California USA and Frisa Reha Klinik, Bad Tölz, a Rehabilitation Center in the south of Bavaria, ideal for rehabilitation, med-spa, wellness and personal wellbeing join expertise to offers cutting edge regenerative therapy combining your own stem cells and naturopathic healing to restore body’s youthful vitality.

Stem Cell Rejuvenation – Therapy is the most potent way to naturally restore your body’s healing potential without major surgery or downtime. Using Stem Cells for anti-aging longevity, cosmetics as well as for chronic illness and disease. Even though there is no official FDA approval of several innovative treatment options, including stem cell therapy at the moment, a number of procedures can now be performed in the U.S. for patients to get the best possible benefits from the practicing of medicine. In particular, harvesting stem cells from a patient and re-introducing them in that patient’s body after only minimal manipulation is a practice that is allowed in the U.S. today.

DSMI and Firisa Reha Klinik, innovative state-of-the-art medical expert and facility offers advanced therapies for the following chronic conditions, typically in their advanced stages:

1. **Chronic Heart Conditions:**
   a. Congestive Heart Failure/Cardiomyopathy (CHF)
   b. Coronary Artery Disease (CAD)

2. **Vascular Diseases:**
   a. Generalized atherosclerosis
   b. Peripheral vascular disease
   c. Erectile dysfunction (ED)

3. **Chronic Lung Diseases:**
   a. Pulmonary hypertension (pHTN)
   b. Chronic Obstructive Pulmonary Disease (COPD)/emphysema

The promise of future medical treatments that will be capable of regenerating tissue repair and growing new tissues is very exciting and rapidly changing.

1. **Other Chronic Conditions treated:**
   a. Diabetes Mellitus
   b. Senile Dementia/Cerebral Sclerosis/Alzheimer’s and Parkinson’s Disease
   c. Age Management:
      i. Bone Degenerative Diseases
Our Expert understand the value of a good physical quality of life and our specialists are focused on making positive differences in the lives of our patients through innovative stem cell therapy and regenerative medicine treatments. Even though stem cell therapy is offered on a commercial basis by several groups throughout the U.S. and worldwide, several of those have no scientific or adequate clinical background or reputation to substantiate their claims. DSMI on the other hand is based on the long-term experience of renowned practitioners like Dr. Ernst Schwarz, as well as on published scientific research (see references below among others).
